PROFILE

Computer Science graduate student with full-stack development experience gained through a hands-on capstone project building and testing a full-stack, API-driven web application. Currently employed within Marriott International as Assistant Banquet Manager at JW Marriott Camelback Inn, with 6+ years leading cross-functional teams in fast-paced, guest-facing environments. Strong communicator, fast learner, comfortable working across the stack.

EDUCATION

Oregon State University, Corvallis, OR

Expected June 2027

M.Eng in Computer Science, Minor in Artificial Intelligence | GPA: 3.78

Relevant Coursework: *Software Engineering Methods, Human-Computer Interaction, Technical Writing*

Portland State University, Portland, OR

March 2023

B.S. in Computer Science

Relevant Coursework: *Intro to Database Management Systems, Elements of Software Engineering, Modern Agile and XP Software Engineering, Unit Test Branching Strategies, Algorithms & Complexity*

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C++, C#, C, HTML, CSS

Frameworks & Libraries: REST API design, JSON, Vue.js, Tailwind CSS, Passport, OpenGL

Databases: MongoDB, SQL

Tools & Practices: Git/GitHub, CI Pipelines, unit testing, Agile/Scrum

RELEVANT PROJECT EXPERIENCE

Full-Stack Programmer, Capstone Project for Abilities at Work | Portland State University

Aug 2022 – Mar 2023

- Built a secure full-stack web application matching adults with disabilities to jobs they qualify for, served by Abilities at Work, a nonprofit workforce organization.
- Developed authentication and login flows for two distinct user types (employee and administrative), including form validation and session handling.
- Designed and built the job-creation interface, capturing user input as JSON payloads over REST endpoints and persisting records to a MongoDB database; modified the database schema to support new data fields as requirements evolved.
- Created reusable front-end components used across the application to keep the UI consistent and reduce duplicate code.
- Collaborated with a team under a real client deadline, translating stakeholder requirements into working features; gained initial exposure to Docker for environment setup.

WORK EXPERIENCE

Assistant Banquet Manager | JW Marriott Camelback Inn

Dec 2024 – Present

- Serve as primary on-site manager for guest-facing events ranging from 20–400 guests, including multi-day corporate functions, weddings, and private events; coordinate with additional managers on larger events, including galas exceeding 1,100 attendees.
- Partner daily with culinary, event planning, AV, and bar teams to translate guest requirements into on-time, accurate execution.
- Own monthly inventory reconciliation for beverage stock, maintaining accurate records and supporting cost control.

Events Captain | The Reserve Vineyard & Golf Course

Jul 2019 – Dec 2024

Led event teams through setup, service, and breakdown for weddings, golf events, and corporate functions; served as on-site point of contact for client and venue standards.

PROFESSIONAL SKILLS

Leadership & Collaboration: Lead cross-functional teams through complex, multi-stakeholder projects on tight timelines.

Communication: Main point of contact between teams, vendors, and clients, translating requirements into clear action items.

Problem-Solving: Troubleshoot day-of issues under real-time pressure, from vendor delays to last-minute client changes, without disrupting event execution.

Adaptability: Adjust quickly to shifting priorities in fast-changing, high-pressure environments.
